

GROWTH CHARTS FOR 22q11 DELETION SYNDROME

Five centile (9th, 25th, 50th, 75th, 91st) lines for weight, height, body mass index (BMI) and head circumference.

22q11 Deletion Syndrome (22q11DS) solid lines, US and UK Reference (R) dotted lines.

Weight, height and BMI plotted against WHO Reference centiles birth - 5 years alone and combined with US CDC 2000 Reference centiles 5 - 20 years. Head circumference plotted against WHO Reference centiles birth - 5 years alone and combined with UK Reference centiles 5 - 20 years, used as US Reference only covers birth – 3 years.

Boys Weight 22q11 DS and Reference (R) Birth to 20 years
